

INTELLIMAX®

Brilliant & Intelligent

Wastage of resources not only hinders future development but also has adverse ecological effects in the long run. Designing spaces should be functional and perfectly utilise every available inch. **IntelliMax** is engineered to fit and work effectively in any exhibition layout. From our principal of reduce, there is no wastage or excess space loss; specifically designed for the showroom, retail environment, museum, tradeshow mall kiosk and lobby. We at **DisplayMax** ensure that none of the materials used to construct IntelliMax is not wasted and can be reused at any given time. **IntelliMax** uses the unique Spider and Seamless Point fixing for practical solutions to maximize the overall visual presentation effect.
